**Some general feedback received from questions 4, 5 and 8 and 12**

- A preference for a longer demonstration.
- Some would join a workshop if it was free ;-)
- Some comments on the dark screen, those at the back could not view the presentation clearly, lighting, music on during first few minutes, acoustics (presenter speaking directly to the mic during demo). Very valid points and will be improved upon.
- Difference between Aperture and Lightroom. I have never used Aperture. So I am not able to offer any personal user experience or comparison to the product.
